# DESDE LA IDEA HASTA LA MATERIALIZACIÓN...

Cada luminaria de PALÉ ILUMINACIÓN nace de una idea, un sentimiento, una necesidad...

Una vez concebida y diseñada la solución de iluminación se selecciona la materia prima y se modela hasta obtener el diseño básico. Tras el pulido y la restauración llega al equipo de producción, donde se ensamblan los componentes hasta conformar el modelo.

Una última fase de verificación garantiza que el producto que llega a cada cliente cumple los estándares europeos de alta calidad.

Nuestras luminarias, creadas íntegramente en PALÉ ILUMINACIÓN, garantizan su exclusividad y hacen de cada lámpara un producto único.

## FROM IDEA TO REALISATION...

Each PALÉ ILUMINACIÓN lighting fixture is born from an idea, a feeling, a need...

Once the lighting solution has been conceived and designed, the raw material is selected and modelled to obtain a basic design. After polishing and restoration, it reaches the production team, where the components are assembled to integrate the model.

Our final verification phase ensures that products meet European quality standards.

Our lighting fixtures, created entirely in PALÉ ILUMINACIÓN, ensure their exclusivity and make each lighting fixture a unique product.
